The tidal Delaware River flows between the top of Pennsylvania and the Delaware Water Gap. It is a navigable waterway that allows for recreational boating and fishing opportunities. Visitors can enjoy the unique ecosystem and landscape of the tidal Delaware River, including the presence of the Schuylkill River and the Delaware River. The river is home to a variety of wildlife, such as fish, birds, and mammals, making it a popular spot for both amateur and professional birdwatchers. The river is also a popular spot for fishing, particularly for species such as striped bass, black bass, and yellow perch. Additionally, the river is a gateway to the Delaware Bay, which offers opportunities for marine recreation, such as kayaking and paddleboarding. Visitors can explore the history of the area through the Delaware City Historic District, which includes the Delaware City Historic District Museum, the Delaware City Visitors Center, and the Delaware City Historic District Park. The park features a walking trail that leads visitors through the historic district and offers interpretive signs and information about the area's history.
