Water trails are recreational waterways on a lake, river, or ocean between specific locations, containing access points and day-use and/or camping sites for the boating public. Water trails emphasize low-impact and promote stewardship of the resources. Explore this Pennsylvania water trail.

For your safety and enjoyment:
- Always wear a life jacket.
- Obtain proper instruction in boating skills.
- Know fishing and boating regulations.
- Carry proper equipment.

Always wear a life jacket.

Fishing Opportunities
The Juniata River watershed supports diverse coldwater and warmwater fisheries that include the species shown at www.fish.state.pa.us. Fishing opportunities vary along the Juniata River.

JUNIATA RIVER
The Juniata River’s headwaters originate on the eastern slopes of the Allegheny Front, part of the eastern continental divide, at an elevation of 2,200 feet above sea level. The refuge’s headwaters in the Allegheny National Forest and Bald Eagle State Forest provide excellent spawning habitat for rainbow and golden trout. The Juniata River watershed is composed of more than 5,000 miles of streams, together draining 6,400 square miles of land in south-central Pennsylvania. The river’s three main tributaries are the Little Juniata, the Frankstown Branch and the Raystown Branch.

Respect the Privacy & Rights of Landowners
Please respect the privacy and rights of landowners along the Juniata River Water Trail by obtaining permission before entering any privately owned land, above or below, from the landowner. Though the Juniata River is a water trail without barriers, it is a real river with real wildlife on real property. In any event,细则 local towns and businesses between Harbour-Beach and Williamsport, PA, and ask the landowner what you can do to respect their property. A friendly and quiet greeting is always welcome.
